

Introduction

Kidney Wales is both renowned and dedicated to uniting the Welsh kidney community. Our vision is to enable world-class care, support and well-being services to the estimated 20,000 kidney patients and their families in Wales.

For over 50 years the charity has been supporting patients and their families by providing information and grants, investing in facilities and services, along with funding pioneering research.

Funding requirements

£30,000 of research funding is available for investment in five scholarships of £10,000 each for the following categories:

Kidney Wales Scholarship	Psycho-social care for people with kidney disease
Kidney Wales-Morgan Scholarship	Allied healthcare professionals, Psychologists, Social Workers and Renal Nurses
Kidney Wales-Salaman Scholarship	Young researchers (young in age or in research career)

The funding may be used flexibly to fund tuition fees, living costs or to back fill posts to free up individuals from their substantive posts to undertake research.

The funding may be used over a period of up to three years.

Assessment criteria

Your application will be assessed against the following criteria:

- Fit with funding priorities
- The co-production of research design and delivery, involving patients and professionals
- Impact on the Welsh kidney community
- Value for money

How to apply

The deadline for applications is **Friday 24th September at 5pm.**

Please submit your grant application and CV to Team@kidneywales.cymru

Funding decisions will be notified by **Friday 7th October.**

Applicant details

Name of Lead Applicant (Chief Investigator)	
Job Title	
Postal Address	
Telephone
